MISSION STATEMENT

The American Printing House for the Blind promotes independence of people who are blind and visually impaired by providing specialized materials, products, and services needed for education and life.

CORPORATE STATUS

The American Printing House for the Blind, Inc. is a 501(c)(3) non-profit organization. Gifts, therefore, are tax deductible.

WHAT IS THE CORE AND EXPANDED CORE CURRICULUM?

CORE CURRICULUM

Educators define core curriculum as the knowledge and skills a student should learn by high school graduation. This foundation, for almost all learning, is generally related to academic subjects.

EXPANDED CORE CURRICULUM

The American Printing House for the Blind, and most professionals in the field, firmly believe that visually impaired students need an expanded core curriculum that encompasses additional areas of learning. Experiences and concepts casually and incidentally learned by sighted students must be systematically and sequentially taught to students with a visual impairment.

Dr. Philip Hatlen (1934–2016) authored the introductory copy at the beginning of each of the Expanded Core Curriculum sections in this catalog. Dr. Hatlen's numerous accomplishments included the original development of the Expanded Core Curriculum. Dr. Hatlen had many connections at APH, including acting as Ex Officio Trustee and our Executive in Residence. Read more about the extraordinary Dr. Hatlen at the Hall of Fame website, www.aph.org/hall/inductees/hatlen/

INTRODUCTION

GENERAL INFORMATION

Service for 160 Years

Since 1858, APH has been creating unique products for people who are visually impaired, blind, and deafblind. APH products are designed for infants, preschoolers, students, and adults, both in education and in daily living.

Recommended Ages for Products

Recommended ages for products are expressed as functional age rather than chronological age.

Prices and Types of Funds Accepted

All items in this catalog can be purchased with regular funds (i.e. checks, credit cards, or purchase orders). Most items can also be purchased with Federal Quota funds through an Ex Officio Trustee. Refer to the inside back cover for an overview of Federal Quota. Prices in this catalog are effective as of **June 1, 2018**. *Prices are subject to change without notice.*

Parts Available Icon

Products with available replacement parts are marked with this icon. Refer to the Replacement Parts Catalog in the back of this catalog for details.

UEB Icon

Products with this icon are transcribed in Unified English Braille (UEB).

Safety Warnings Icon

Please note and follow the small parts choking hazard and other warnings indicated for certain APH products.

Downloadable Manuals

Most APH products have manuals available for immediate, free-of-charge download for printing or embossing as needed. Please visit our downloadable manuals page at: www.aph.org/manuals/

APH Intervention Continuum Three Sequential Kits

APH recommends that learners use the following three products sequentially:

Sensory Learning Kit (SLK) — pg. 31

This kit is an extensive set of sensory items and written materials that help the most significantly challenged learners increase their curiosity and develop specific skills.

SAM: Symbols and Meaning — pg. 88

A kit for learners with visual and multiple impairments & pre-school children with visual impairments who are just beginning to use symbols.

Tactile Connections: Symbols for Communication — pg. 87

Helps teachers create a tactile card system that is individualized for visually impaired and blind learners who have additional disabilities and/or lack a formal means of communication or literacy.

STACS: Standardized Tactile Augmentative Communication Symbols Kit — pg. 89

Tactile symbol systems are valuable tools that aid learners with conversations about people, places, events, and ideas. STACS helps teach a beginning standardized vocabulary.

Child-guided Strategies: The van Dijk Approach to Assessment — pg. 18

An easy-to-use guidebook with an accompanying DVD that follows the assessment of a baby, a young child, and a teenager.

CVI Complexity Sequences Kit — pg. 125

Includes cards designed to refine the ability to identify a target in the presence of increasing amounts of background information.

TADPOLE Kit — pg. 9

Tools and Activities for the Development of Visual Skills (TADPOLE) is an array of activities, materials, and tools for use with learners who are ages 0-2 years.

Spangle Tangle — pg. 37

Fun, twisty Spangle Tangle helps students learn motor, problem-solving, cognitive, self-care, social, and pre-braille skills.

BOEHM-3 K-2

1-03883-00 BIG PICTURE KIT

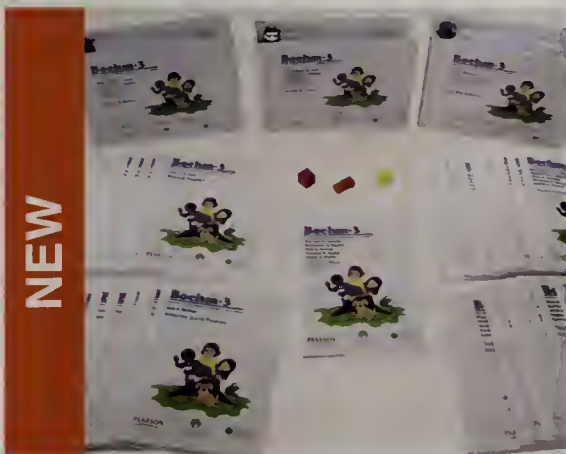

Boehm-3 K-2 measures 50 basic concepts relevant to school success. This test helps identify students who may not have had the learning experiences necessary to develop an understanding of key concepts. Developed for easy use with English- and Spanish-speaking students.

Recommended ages: grades K-2.

Visit www.aph.org/manuals/#alpha-b for a list of free .brf files.

Price: \$359

1-03884-00 TACTILE EDITION

Note: Boehm-3 Examiner's Manual is available through Pearson: <http://www.pearsonclinical.com/language/products/100000188/boehm-test-of-basic-concepts-third-edition-boehm-3.html>

Full reliability and validity data for children without visual impairment can be found in the Examiner's Manual (see link above), but does not apply to this adaptation. Everything needed to administer the test to children with visual impairment is included in these kits.

Price: \$507

The Boehm-3 Kits can be used with students diagnosed with CVI by applying the same accommodations that they use in school. There is no background complexity, and the drawings have already been simplified for use with low vision students.

BOEHM-3 PRESCHOOL

Boehm-3 Preschool measures 26 basic concepts relevant to the preschool/early childhood curriculum. This test helps identify children who lack understanding in basic rational concepts so you can provide intervention sooner, increasing their chance of success in school. Both kits assess each concept twice to determine the child’s understanding across contexts. The Big Picture Kit manual and record forms are available in English and Spanish.
Recommended ages: Pre-K.

1-03722-00 BRIGHT SHAPES KNOB PUZZLES KIT

Price: \$169

Based on the shapes used in APH's Light Box Levels I-III Kits. Bright Shapes Knob Puzzles have knobs to help with grasping, to help with an array of skills. Targeted skills include hand-eye coordination, relational concepts such as in/out, directionality, shape and color recognition, comparison, and patterning. While this is a terrific puzzle on its own, it is designed to be easily viewed on the APH Light Box. Educators, therapists, and parents will discover endless learning opportunities. Recommended ages: 2 years and up.

1-08816-00 REACH & MATCH

NEW

LEARNING KIT AND INCLUSIVE LEARNING PROGRAM

An innovative system for students with sensory impairment and other special needs to learn and engage with their peers. Includes four large puzzle piece mats, each a different color. One side of each mat has a texture with a tactile pattern that matches corresponding tiles. The other side has the same texture but with a recessed white path. Along the path are cut-out shapes that correspond to the same tiles. The tiles are stored in a round pillow with a zipper closure that is placed in the middle. Recommended ages: 3 years and up.

Price: \$900

Reach & Match IS available with Quota funds.

6-77956-00 A TOUCH

NEW

This colorful, texture-rich book is perfect for reading aloud with a young child. The sturdy pages are small and easy to turn, and the text is extremely brief. Heart-shaped, textured pieces can be manipulated and used to stroke the child's hands and face. At the end of the book the heart takes wing and lifts from the page. Recommended ages: 3 years and up.

EARLY CHILDHOOD

6-77954-00 **SIX LITTLE DOTS**

Features charming text and tactile illustrations that invite exploration. Six Little Dots is a texture-rich book about braille fundamentals. Each 1/2 inch braille dot is a different and distinctive texture and color. Little Dot 1—sliding on elastic—even hops and moves about, exploring different dot positions along the way. The print/braille text introduces the braille dots as story characters who inhabit a braille cell, as they take their place in the braille cell. Recommended ages: 3 years and up.

Price: \$139

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

6-77955-00 **BEAR HUNT**

Invites children on a multisensory expedition toward a bear's cave. As the reader journeys across the page, sliding a small token along a path, fingers encounter tactile and audible features, such as waving grass, a silken stream, a squishy marsh, trunks of trees, and slippery "snow." Feeling inside the cave reveals a furry face with big eyes, a soft nose—and sharp teeth! Children are sure to identify this quickly. Recommended ages: 3 years and up.

Price: \$229

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

6-77910-00 *HOLY MOLY*

A colorful, tactile board book with rhyming text and interactive components encourages young tactual learners to use their fingers to explore. The multisensory and interactive components engage the child in a movement or action that is connected to the text in a meaningful way. Sturdy, easy-to-turn pages. Recommended ages: Birth to 3 years.

As the Velcro® ball is rolled to its final “surprise” destination, important hand skills and basic directional concepts are learned and reinforced. This interactive storybook’s simultaneous visual, tactile, and auditory feedback help the child attend to the path traveled by the ball. Also included are an assortment of interactive Velcro face pieces and suggested activities.

Price: \$96

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08451-00 **ROLLING RIGHT ALONG CONSTRUCTION KIT™**

This kit allows teachers and parents to construct books similar to APH’s Rolling Into Place (above). Using provided accordion-folded panels, Velcro® pathways, and accessory items, self-designed books can be tailored to the child’s interests and needs.

Price: \$72

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08452-00 **STICKY DOTS ADHESIVE™**

Tactile graphics projects are easier with Sticky Dots – make any lightweight objects self-adhesive! Use to create tactile books, worksheets, adapted game boards, etc. These sheets allow you to transfer the dots to a wide range of materials, e.g., felt, craft foam, textured paper, etc. Package includes eight 8 1/2 x 11 inch sheets in a tear-off pad.

Price: \$9

LOTS OF DOTS COLORING BOOK SERIES

An exciting set of three raised-line coloring books designed for future large print and braille readers. The books are designed for sequential use; children develop character recognition, pre-literacy, and pre-math skills, and eventually picture building and daily living skills.

Lots of Dots helps children who are visually impaired gain skills similar to those of their sighted peers, facilitating peer interaction. Accompanying each book are suggested enrichment exercises for each letter, number, or word, allowing a child to fully associate the print letter, the braille, the tactile graphic, and the object. Recommended ages: Pre-K and up.

1-10000-00 *LEARNING MY ABC'S*

Facilitates braille character recognition through repetitive activities. Attached to the inside front cover is a plastic stencil of the jumbo cell that can be folded over the blank pages, allowing the student to practice the braille cell for that letter.

Price: \$65

1-10001-00 *COUNTING 1 2 3*

Presents numbers 0-30 and then integers of 10 up to 90. Attached to the inside front cover is a plastic stencil of 3 large braille cells. This can be folded over the blank pages, allowing the child to practice the braille cell for the number by tracing or by using the accompanying foam braille chips. This book uses uncontracted braille.

Price: \$78

1-10002-00 *COLORING THE GARDEN*

Presents a variety of fruits, vegetables, and herbs, and introduces picture building. Beginning with an empty garden; each page adds a new feature, i.e., clouds, rain, seeds, and plants. Once the garden has grown, a new garden item is introduced for the child to color. The child and parents/siblings/teachers can do activities together. Uncontracted and contracted braille are used.

WILSON READING SYSTEM® (WRS) AND INSTRUCTIONAL MATERIALS

A complete curriculum for teaching decoding and encoding (spelling), beginning with phoneme segmentation. WRS provides an organized, sequential system with extensive controlled text to help teachers implement a multi-sensory structured language program.

This system specifically addresses the learning style of students with a language-based learning disability; however, it is beneficial to any student lacking basic reading and spelling skills.

The Wilson Reading System is authored by Barbara A. Wilson and published by Wilson Language Training Corporation. Permission has been granted to APH to publish the braille and large print versions. For more information and professional development opportunities on the use of the program, please Recommended grades: 2 and up. Visit: wilsonlanguage.com

Note: WRS Instructional Materials are needed to work with the WRS Large Print and Braille Student Kits.

1-08834-00 TEXTURED SORTING CIRCLES AND SHAPES

These assorted shapes are provided in a variety of textures, sizes, and colors. The accompanying sorting circles are also provided in a variety of colors and textures, and can be used to create Venn diagrams.

Price: \$144

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08894-00 TACTILE COMPASS FOR MATH & ART

This assistive tool enables students to draw tactile circles up to 6 inches in diameter and includes tactile markings in inches and centimeters. Includes two different spur wheels to draw both single-line and double-line circles. Used in combination with braille paper or plastic film and a rubber mat (not included with this product). Recommended ages: 7 years and up.

Price: \$62

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

PARTS FOCUS IN MATHEMATICS KIT, SECOND EDITION

Objectives are aligned to National Council of Teachers of Mathematics Curriculum Focal Points. Materials include hundreds of manipulative items, designed to be easily handled and offer tactile and visual contrast. Teacher materials include a Teacher's Guide, reusable student worksheets, and printable assessment checklists included on the CD.

Recommended ages: Pre-K to 1st grade.

5-82710-00 **CONSUMABLE HUNDREDS CHART**

This graphic organizer for the numbers 1–100 helps learners develop the skills they need to become flexible and fluent problem solvers and meet the requirements of many state standards as well as the Common Core State Standards.

The chart is printed/embossed on white index stock paper. Alternating rows are highlighted to help students with low vision easily track numbers. Includes 10 charts (5 with highlighting and 5 without highlighting) and a large print guidebook. The Guidebook is available as a free download in accessible formats of .brf and .txt from the APH website: www.aph.org/manuals/

Price: \$15

1-08841-00 **GEOMETRY TACTILE GRAPHICS KIT**

Set of thermoformed raised-line drawings depicting geometry concepts, figures, and relationships. Graphics are larger and easier for students to measure than those in braille textbooks. Recommended ages: 12 years and up.

Price: \$127

1-03410-00 **GEOMETRIC FORMS**

Introduces students to the circle, square, and triangle. Includes 3 plane figures, 4 solid figures, and 1 white plastic sheet illustrating the shapes in black, raised lines.

Recommended ages: 5 years and up.

Price: \$52

1-04095-00 **VENN DIAGRAM TEMPLATE KIT**

A Venn diagram or set diagram shows all possible logical relations between a finite collection of sets. Kit includes 15 sheets with two-circle diagrams and 15 sheets with three-circle diagrams, sized to allow for braille labeling in all sections and in the outer margins. The outlines of the circles are made in contrasting line styles so they are easily distinguishable, both visually and tactually. These heavy, consumable sheets may be tooled directly or used in a braillewriter. Includes a total of 30 sheets, measuring 11.5 x 11 inches.

Price: \$32

1-04115-00 BRAILLE/LARGE PRINT PROTRACTOR

Bold large print numbers and raised dots mark the 180 degrees of this protractor, with markings every 5 degrees. The lines are bold and the type is 18 point.

This protractor features a pivoting wand. When aligned with a certain degree measurement, the corresponding angle is created by the wand and the bottom edge of the protractor.

Price: \$23

1-00460-01 GRAPHIC AID FOR MATHEMATICS

Construct geometric and other figures and graphs related to arithmetic, algebra, geometry, trigonometry, and calculus.

Consists of a cork board mounted with a rubber mat embossed with a 34 x 30 grid of 1/2 inch squares. Included are three flat spring wires, 14 push pins, and rubber bands.

Recommended ages: 8 years and up.

Price: \$221

LARGE PRINT AND TACTILE PROTRACTORS

Students can use the same convenient measuring tools in both classroom and assessment situations. Both protractors are made of lightweight, clear plastic and feature a moveable, transparent yellow wand. Notches on bottom left and right allow for pinning to a surface. Sold in a 4-pk.

1-04116-00 LARGE PRINT PROTRACTOR

Price: \$42

1-04117-00 TACTILE PROTRACTOR

Price: \$43

1-03290-00 FRACTIONAL PARTS OF WHOLE SET

Tactile circles introduce the concepts of wholes, halves, thirds, and fourths. This set contains one work tray with three form boards and 3-inch diameter circles, one whole and the others cut into halves, thirds, and fourths. Recommended ages: 5 years and up.

Price: \$64

BRANNAN CUBARITHM SLATE AND CUBES

Young students may find it easier to use this device rather than a braille to align mathematical problems. A rubber frame with a 16 x 16 grid pattern of nests will hold small plastic cubes numbered 0 through 9 in braille (no print). Frame and cubes are sold separately.

Recommended ages: 6 years and up.

1-08975-00 **PROTEIN SYNTHESIS KIT**

The Protein Synthesis Kit is an accessible, interactive model that adds to the molecular biology concepts introduced by the DNA-RNA Kit. After a messenger RNA molecule is prepared with the DNA-RNA Kit, students decode the RNA nucleotide sequence and build transfer RNA molecules that carry amino acids in the correct sequence. The Protein Synthesis Kit includes jigsaw puzzle-like pieces representing transfer RNA nucleotides, Stop and Start subunits, all twenty amino acids, and the APH Genetic Code Large Print Braille.

Price: \$289

1-03020-00 **TACTILE DEMONSTRATION THERMOMETER**

Allows students to independently read, set, and compare temperatures. Has a two-textured, two-colored adjustable “mercury column” with an easy-grip tactile indicator and comparable Fahrenheit and Celsius scales presented in both large print and braille.

Recommended ages: 6 and up.

Price: \$121

1-08286-00 **LIGHT IN-SIGHT: REFLECTION & REFRACTION KIT**

This kit enables science and physics students who are visually impaired to construct ray diagrams related to light reflection and refraction. Unlike other tactile graphics, which are often static, diagrams constructed using this product are malleable, making the teaching and learning process interactive and dynamic. Recommended ages: 12 years and up.

Price: \$199

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08850-00 **BASIC SCIENCE TACTILE GRAPHICS**

Basic Science Tactile Graphics are vacuum-formed raised-line drawings depicting objects, concepts, and relationships that are covered in nearly all elementary science textbooks. They are intended to supplement, not replace, the graphics in a student's adapted textbook. Instructional hints and suggestions are given for each tactile drawing. Includes 52 graphics.

Learn about art, nature, and real world colors with Paint by Number Safari coloring series!

Tropical Rainforest is the first of the Paint by Number Safari™ Series. Paint by Number Safari includes a set of custom-made drawings of real-world subjects that are printed and embossed on heavy paper. The embossed lines make it easy to trace the subjects with your fingers and then follow with a crayon, colored pencil, or paintbrush. Recommended ages: 3 years and up.

1-03933-00 PAINT POT PALETTE: CREATING ART THROUGH TOUCH

Includes a set of custom-made, whimsical drawings by San Francisco artist Debi Harrison titled Color SENSEation. The pictures are printed and embossed on heavy paper; each picture is titled in print and braille. The embossed lines make it easy to trace the subjects with the fingers and then follow with a crayon or paint brush. Paint Pot Palette is a collaboration between PlayAbility Toys and APH. Replacement parts are available from PlayAbility Toys, www.PlayAbilityToys.com

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-03332-00 COLOR-BY-TEXTURE MARKING MATS

An assortment of textured mats that encourage students to independently select embellishments for their personal artwork and coloring pages, as well as for art creations made with clay, foil, and more!

The primary goal of this product is to invite tactile learners to be active participants in art activities by making their own choices based on color and texture preferences. The textured mats and related items can also be used by adults for more sophisticated art creations. The kit is ideal for promoting shared art experiences within a variety of instructional settings with sighted peers.

BUILDING ON PATTERNS: FIRST GRADE LEVEL

BOP is a complete primary literacy program designed to teach beginning braille users all language arts — reading, writing, and spelling. Student materials are in UEB. BOP First Grade lessons require students to read selections themselves with emphasis on decoding skills, comprehension, and fluency. Creative writing, related to the reading selections, is included with each lesson. Spelling is based upon phonics skills. Worksheet packs, lesson monitoring sheets, and unit assessment packs are consumables and are available separately.

Recommended ages: 6 years and up.

Prerequisite: Building on Patterns: Kindergarten or equivalent skills.

Note: Each student kit includes Lesson Monitoring Sheets, Assessment Check-up Forms, Student Textbooks, and Worksheets Pack. Unit 1 Teacher's Edition includes Reference Vol.

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08859-00 TRI-FOLD BOARD

This board measures 37 x 24 inches and is covered with Velcro®-compatible material that can be used in combination with many existing APH hook Velcro-backed pieces (e.g., Picture Maker Accessories), as well as with commercially available OR teacher/parent-made manipulatives. Two 3/4-inch nickel plated D-rings are riveted in the top for easy hanging.

The Tri-fold Board offers an intermediate size between APH’s Velcro-compatible Picture Maker 13 x 20 3/4 inch felt board and the larger 48 x 30 inch Invisiboard.

Price: \$66

1-08692-00 SPINNER OVERLAYS FOR THE LIGHT BOX

Learners diagnosed with CVI are challenged in understanding objects and concepts through use of their vision. The Spinner Overlays for the Light Box are unique in that the parent or teacher may design individualized overlays for each learner. Learners who demonstrate many CVI characteristics generally need a simpler design than learners who demonstrate few atypical visual behaviors.

As the learner increases his understanding of two dimensional materials, use the Supplemental Cards to encourage visual discrimination between same and different, to visually recognize a named object, or to encourage a visually guided reach to a target presented on a complex background. Accessible HTML and BRF versions of the guidebook are available at www.aph.org/manuals/

LIGHT BOXES

When they are used with unique sets of materials, APH's Light Box and Mini-Lite Box help develop awareness of light, color, and objects and assist in the instruction of tracking, scanning, eye-hand coordination, visual discrimination, and visual perceptual skills.

1-08669-00 LIGHT BOX

The Light Box has a lighted translucent white work surface, providing a high contrast background for opaque materials and a source of illumination for colored transparent and translucent items. Includes dimming control to meet the needs of individual students. Can be used flat or tilted at three angles. Adapter accepts power from 110VAC to 220VAC. Customer must supply a physical converter that changes a U.S.-style wall plug to a plug compatible with their electrical system.

Recommended ages: all.

8-75975-00 **ECHOLOCATION AND FLASHSONAR**

This large print guidebook, written by Daniel Kish and Jo Hook, provides instructional strategies for teaching use of echolocation as a method of gaining information about space and objects/environmental features in the world around them.

Although *Echolocation and FlashSonar* works well as an instructional manual for O&M specialists, it can also be used by adults who are blind and visually impaired who are working independently. An extensive list of references and resources is provided for the reader. Free brf file available at: www.aph.org/manuals/#alpha-e

Price: \$77

WARNING: FlashSonar skills should be used along with a human guide, dog guide, or cane.

8-75978-00 **TEACHING STREET CROSSING TO STUDENTS WITH VISUAL IMPAIRMENTS**

How to Teach, Not What to Teach provides information about teaching various components of street-crossing skills at appropriate ages/developmental levels; sequencing skills and environments; and using appropriate pedagogical strategies to enhance effectiveness of street-crossing instruction. Practical case examples and vignettes throughout the manual apply concepts to real-world scenarios.

NEARBY EXPLORER™ APP

This powerful location exploration app is for use online and on Android™ and iOS devices. It's a full featured GPS app that empowers users to independently explore with confidence!

Nearby Explorer uses GPS and your phone's compass to speak real-time information about your surroundings. Includes millions of points of interest (POI) in the U.S. and Canada. When used with a built-in compass, the app also provides feedback about features in your environment. Available in three versions. Individuals are welcome to purchase Nearby Explorer!

An additional feature is Indoor Explorer, which provides location and orientation inside buildings that have been mapped and equipped with beacons.

Note: This app cannot be purchased directly from APH, please refer to page 197 on how to order.

WARNING: Nearby Explorer should be used along with a human guide, dog guide, and/or cane because it does not provide sufficient information to act as a substitute for your preferred O&M method.

Produced by the Discovery Channel cable network for their Animal Planet® Pet series, this video is for anyone who'd like to know more about guide dogs or would just like to meet Denver.

Celebrate with Heathcliff as he's honored after twelve faithful years of service, and meet the new kid on the block – Denver. In this episode see how Denver got his start, "made the cut" at guide dog school, and was matched with Gary. Be amazed as you watch how hard the two of them have worked to become the team they are.

Price: \$15

8-75980-00 **STEP-BY-STEP: AN INTERACTIVE GUIDE TO MOBILITY TECHNIQUES**

Developed by Dr. Sandra Rosen, Step-by-Step guides the user in strategies to identify and correct mobility errors commonly made by new learners. Designed for in-depth study, each spiral bound volume describes in words and pictures how to perform mobility techniques for a given learning module; provides strategies for choosing teaching environments; lists prerequisite and related skills; and includes instructional strategies.

Price: \$299

WARNING: Only O&M specialists should teach the 30 techniques included in Long Cane Techniques, Street Crossing Techniques, Special Environments, and Transportation Techniques modules; however, teachers of students with visual impairments, vision rehabilitation therapists, and other professionals, family members, and friends may wish to learn, as appropriate, some of the 23 techniques included in Human Guide Techniques, Non-Cane Techniques, and Special Techniques modules.

ATTENTION FLASH DRIVE USERS: Open and read the “Read Me First” pdf after inserting flash drive into your computer. After opening any module folder, click **ONLY** the file labeled “0 Double-Click to Start on PC” or “0 Double-Click to Start on Mac”. **DO NOT OPEN ANY OTHER FILE ON THE FLASH DRIVES.** Opening any other file in the menu will corrupt the Step-By-Step program and render it permanently unstable.

MATH™ FLASH

 works with the
Google Assistant

APH has launched a new action on Google Home® and Google Assistant!

This action runs via Google Assistant on devices such as the Google Home smart speaker, and is based on the popular Math Flash software that combines math flash cards with fun audio feedback and a snarky personality. When triggered, Math Flash will allow students to practice math facts on compatible devices. You may choose from three difficulty levels. In addition, you may select which math operations you would like to focus on (addition, subtraction, multiplication, or division). Recommended ages: all.

SNAP CIRCUITS® JR.

Snap Circuits Jr. is an entry-level product for learning about circuits, current, resistance, switches, motors, and other basic electronics concepts. Sold in stores, it is widely used in classrooms because the parts are durable, colorful, and easy to assemble into projects that light up, make sounds, and more. The Snap Circuits Jr. Access Kit, which is sold exclusively through APH, includes the commercial product and makes it accessible to blind and visually impaired users by providing parts labeled in braille, along with written project instructions in braille and large print.

The Snap Circuits Jr. Access Kit and Access Pack were developed by APH with generous cooperation and contributions from Elenco®, makers of a wide variety of learning kits. Please visit www.elenco.com for information about their products and services. For questions or comments about the Snap Circuits Jr. Access products, please contact APH. Recommended ages: 8 years and up.

VISUAL BRAILLER™ (FOR IPAD)

The simple braille editor! Visual Brailer is a braillewriter app for your iPad®, and it has a place in every braille transcriber's toolbox. It displays a traditional six-dot keyboard and simulated braille on your iPad screen. You can edit and save your work, which makes Visual Brailer perfect to use for on-the-go practice for NLS certification exercises. Visual Brailer supports any code you wish to use, because it makes no assumptions about what you are writing. Use it to help learn new codes, such as Unified English Braille (UEB), and record your progress.

Visual Brailer also works with Bluetooth refreshable braille displays with keyboards, such as APH's Refreshabraille 18.

Visual Brailer is FREE and available on the App Store at <https://itunes.apple.com/app/visual-brailer/id888739587>

1-08204-00 QUICK & EASY EXPANDED CORE CURRICULUM: THE HATLEN CENTER GUIDE

Designed for transition students who are visually impaired. The included lessons were chosen to address the most common gaps found within this population and require little time, expertise, or equipment to implement by the educational team and family members. The lessons, categorized by setting (home/school or community), are intentionally designed to be completed in 5–15 minutes. They are not designed to replace a comprehensive program addressing the ECC.

Note: The entire binder contents are only available as a braille ready format (.brf) file.

Price: \$48

1-08205-00 ECC ICON POSTER

Price: \$64

The ECC Icon Poster is a wall-sized print/tactile poster that lists the Expanded Core Curriculum skills important for the specialized instruction of students who are blind and visually impaired. Each skill area is represented with a tactile/print icon and print/braille description. The nine skill areas include: Assistive Technology, Career Education, Compensatory Skills, Independent Living, Orientation and Mobility, Recreation and Leisure, Self-Determination, Sensory Efficiency, and Social Interaction.

The poster is complemented by a separate 2-page large print flyer (with a separate braille version) that provides a very detailed description of each ECC skill area. The content of this flyer was reprinted, with minor modifications, with permission from the Texas School for the Blind and Visually Impaired.

The ECC Icon Poster measures 18 1/2 x 22 1/2 inches and has a die-cut hole for convenient hanging in a classroom setting. Prominently display this attractive and accessible poster to remind individuals (teachers, parents, paraprofessionals, etc.) working directly with students who are blind and visually impaired, as well as those unfamiliar with the ECC, of the importance of the Expanded Core Curriculum. The poster, with related flyer, is also an ideal addition to the use of the Quick & Easy ECC: The Hatlen Center Guide.

1-03952-00 COLOR STAR

This hand-held device has hundreds of uses at home, work, or school. Color Star® is a powerful color identifier. It recognizes more than 1,000 different color shades, identifies contrast measurements, recognizes the color of LED lights, perceives the light intensity in the surrounding environment, and recognizes patterns – all with clear spoken voice output.

Price: \$449

KEITZER CHECK WRITING GUIDE

A flexible, durable, polyethylene guide that will hold any standard check. A slant is located at the upper left corner for orientation. This guide allows you to feel the locations of the various blanks on a standard sized check and write in the correct areas.

There are four rows of openings:

- First row the left side is for writing in the month and day and the right side is for the year.
- Second row left side is for writing who the check is for (Pay to the Order of), the right side is for writing in the numeric amount in dollars and cents.
- Third row has one opening for writing out the amount.
- Fourth row left side is for writing a memo and the right side is for your signature.

The closed guide measures 3 1/2 x 6 1/4 inches and easily fits in a shirt pocket or purse. It works with checks that are standard size and have a standard layout.

1-16999-00 DEAFBLIND POCKET COMMUNICATOR

Price: \$57

Durable, washable, and easily fits in your pocket or bag. The smooth numbers side and the matte letters side lets you know “at first touch” which side you need to chat with someone. The breakaway lanyard option gives you some freedom to carry other items and to access the Deafblind Pocket Communicator (DBPC) with ease.

Communication cards can be helpful when using the DBPC with people at a coffee shop or in a store. Sample messages might include: “How much does this cost?” or “Use my finger to show me the answers on this device.” Feel free to design your own communication cards to meet your unique needs.

LABELING, MARKING, AND ORGANIZATION: A SELF-HELP GUIDE FOR PERSONS AFTER VISION LOSS

If you are tired of opening apricots instead of tomatoes, wearing your navy shirt with black slacks, or floundering through files when trying to find your utility bill, then Labeling, Marking, and Organization may be the book you need! Written by Lisa-Anne Mowerson, a renowned vision rehabilitation therapist, it contains practice activities that help you develop new ways to identify items with labels you can no longer read. "Explorers" (fictitious persons who lost vision) are working through the book along with you, to keep you motivated and encouraged!

Vision rehabilitation therapists can use this book with accompanying recordings of the text on CDs as homework for their consumers – and consumers losing vision can use this book on their own. Recommended ages: 14 years and up.

TOUCH 'EM ALL BASEBALL

Touch 'em All Baseball is easy to learn, and you may change the complexity for different levels of play. You'll need to be familiar with the basic rules of baseball for counting balls, strikes, and outs; for advancing runners; and for scoring, but you don't need a lot of baseball expertise to enjoy this game.

The Teacher's Kit (sold separately) provides suggestions for using Touch 'em All Baseball with students, not only to teach about baseball but to develop other skills. This kit includes a set of tactile/print "stick figure" diagrams, which illustrate the motions of pitching and batting along with some of the spatial arrangements that apply in baseball, and suggested physical activities that correspond to the images. Recommended ages: 8 years and up.

You can assign one row as the "tens" row to keep track of up to 110 events. Includes one yellow and one green card. Instructions in print and braille. Recommended ages: all.

Price: \$28

1-07500-00 **TALKING GLOWDICE**

Push the "Roll" button and a randomly generated number between one and six is announced in digital speech, and the corresponding number is displayed in bright blue LEDs.

Takes four AAA batteries (not included).

Price: \$33

1-08462-00 **SCATTERED CROWNS: TACTILE ATTRIBUTE GAME**

A fun, versatile board game that encourages young children, especially those with visual impairments and blindness, to develop tactile skills. As players search for crowns with specific attributes they will practice: texture/shape/size discrimination, tactile memory, systematic searching skills, and spatial concepts.

Other concepts include counting, turn-taking, sorting/organizing, and social interaction skills. The game is conducive to playing classic “concentration” games using the crown pieces or user-constructed matching game pieces (e.g., basic shapes, braille words/letters, etc.)

Recommended ages: 5 and up.

Price: \$281

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08440-00 **GAME KIT**

A collection of common game parts designed for use by players who are visually impaired and blind. Parts can be used to play games from the included handbook, to adapt commercial games, or to create new games. Use to build social skills or to review school subjects.

Recommended ages: 5 years and up.

Price: \$299

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08460-00 **WEB CHASE**

An originally designed board game by APH that is intended to develop important tactile skills within a fun, recreational context. As players navigate their hungry spiders through an insect-laden web, they learn to trace various raised lines, identify point symbols, and discriminate textures and shapes (of various prey). Recommended ages: 5 years and up.

Price: \$304

Note: One-time application of Velcro® coins to the game board and lunch trays is required by the customer.

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

Price: \$16

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08910-00 **TREKS: THE GAME OF COMPASS DIRECTIONS**

The goal of the game is to be the first player to move your pieces (“treksters”) across the board from your home row into the opponent’s home row. Change the game to make the play simpler or add rules to make it more complex.

Along with the above pieces, the kit includes a game board, tactually and visually contrasting treksters, rules and variations booklet in large print and braille, and a set of tactile dice. Recommended ages: 8 years and up.

Price: \$152

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

1-08430-01 GAMES OF SQUARES

The 8x8 inch grid board and accompanying game pieces incorporate color contrast and distinctive textures and shapes that can be easily discriminated by children, students, and adults with visual impairments and blindness. Starter ideas and possible adaptations are provided in "Beyond X's and O's" within the Game Instruction booklet. Recommended ages: 5 years and up.

Note: One-time application of hook/loop material to the game grid, game tokens, and masking overlays is required of the customer.

Price: \$278

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without supervision.

BRAILLE CODEBOOKS – BANA

The mission of the Braille Authority of North America (BANA) is to assure literacy for tactile readers through the standardization of braille and tactile graphics. It publishes rules for formatting and serves as the authority for braille transcribing. The following BANA titles are available in both print and braille editions:

BRAILLE FORMATS: PRINCIPLES OF PRINT-TO-BRAILLE TRANSCRIPTION, 2016

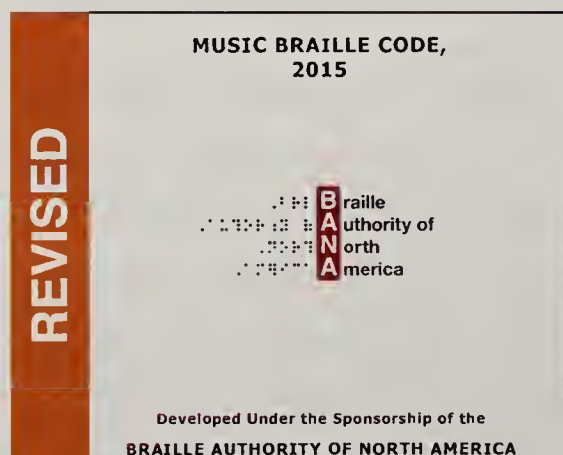

With the implementation of UEB, these guidelines provide a foundation for transcribing print content in an accurate and consistent manner. A wide variety of examples are included. Available for free download on the BANA website: www.brailleauthority.org/formats/formats2016.html

MUSIC BRAILLE CODE, 2015

Where appropriate, rules and procedures have been adjusted to comply with the adoption of *The Rules of Unified English Braille* and of *Braille Formats: Principles of Print-to-Braille Transcription*. A section about transcribing music for harps has been added. It also incorporates some signs that are not defined in either that work or in the *New International Manual of Braille Music Notation*. Available for free download on the BANA website: www.brailleauthority.org/music/music.html

APH INSIGHTS ANNUAL JURIED ART COMPETITION AND EXHIBITION

Each year APH sponsors a juried art competition and exhibition designed exclusively for blind and visually impaired artists of all ages. From the hundreds of entries received, works are chosen for exhibition at APH’s Annual Meeting and on our website. Award winners are selected in each of nine categories; media may include sculpture, pottery, weaving, photographs, prints, paintings, etc. Artwork is judged on originality of concept, expressive use of media, and artistic excellence.

OTHER SERVICES FROM APH

JOIN WITH APH FOR PRODUCT TRAINING

APH staff are available to conduct free or low cost training sessions, presentations, and workshops on the availability, instructional methods, and prescriptive use of aph products. These presentations and workshops are custom designed to meet your needs and are scheduled through the Education and Outreach Department. Additional in-depth training is available through our National Instructional Partnerships (NIP) events. NIP events provide comprehensive training across the areas of the Core Curriculum and the Expanded Core Curriculum and highlight the use of APH products to teach specific skills in those areas. APH provides expert presenters and our partners work with us to promote events, provide meeting space, assist with event logistics, and more.

Please contact Janie Blome for more information. 800-223-1839 ext. 367 or jblome@aph.org

VISIT OUR MUSEUM!

Explore the fascinating educational history of people with vision loss when you visit our Museum, where innovations, inventions, and products that have made a difference are on exhibit, from the earliest tactile books to digital technology. Learn about the many individuals whose ideas and efforts have shaped that history about the unique role of the American Printing House for the Blind (APH), the largest manufacturer of educational products for people who are blind and visually impaired.

Guided tours of the APH factory are also available and take you behind the scenes where braille and tactile graphics are produced and audio books are recorded. It's FREE!

Museum Hours (EST)

Monday-Friday, 8:30 a.m. to 4:30 p.m.

Saturday, 10:00 a.m. to 3:00 p.m.

Closed on holidays and Derby Day

Factory/Museum Tour Hours

Monday-Thursday, twice daily, at 10:00 a.m. and 2:00 p.m.

Advanced reservations are required for groups of 10 or more.

Length of tour: approximately 1 1/2 hrs.

For more tour information, contact the APH Government and Community Affairs Department: 502-895-2405, ext. 242 or 1-800-223-1839.

NEED ACCESSIBLE MATERIALS? APH CAN CUSTOM-MAKE THEM FOR YOU!

APH can create braille, tactile graphics, enlarged print, or audio materials to your specifications. Our state-of-the-art processes and exacting standards allow us to create custom materials for your clients, customers, shareholders, and employees who are blind and visually impaired. This enables your materials to be ADA-compliant.

Please contact the APH Contract Administration Dept. for a no-obligation cost estimate on your next project. 800-223-1839 or Email: contracts@aph.org

FINDING TACTILE GRAPHICS TEMPLATES IS EASIER THAN EVER!

APH offers the free Tactile Graphic Image Library database. Teachers, transcribers, students, families, and paraprofessionals are able to register to use the image library to find and download tactile graphics that can be enhanced for your needs. Search the database by category or keyword. Offers 3D images and designs for the Tiger® Embosser.

HOW TO ORDER AND RELATED INFORMATION

SHIPPING METHODS

Shipping Methods within the U.S.: Most items ordered by or for people who are visually impaired will be shipped Free Matter for the Blind, unless otherwise requested.

Note: Certain high-dollar items cannot be shipped Free Matter.

To have items shipped other than Free Matter, write or call APH before placing an order. Tell us the items you wish to order and the type of shipment preferred. APH will then give you the cost of shipment. The shipment cost must be sent along with the purchase price of the items when you mail in the order. Also write on your order the type of shipment you prefer. Shipment choices other than Free Matter within the U.S. include:

- **U.S. POSTAL SERVICE® PRIORITY MAIL:**
2–3 day delivery to any address (including P.O. boxes). No additional charge for Saturday delivery. No Sunday or holiday delivery.
- **U.S. POSTAL SERVICE® EXPRESS MAIL:**
Guaranteed next day delivery to most addresses (including P.O. boxes), 7 days a week, 365 days a year.
- **UNITED PARCEL SERVICE® (UPS) GROUND:**
4–7 day delivery to street addresses only (no P.O. boxes). No weekend or holiday delivery.
- **UPS 3-DAY:**
Guaranteed 3-day delivery to street addresses only (no P.O. boxes). No Saturday, Sunday, or holiday delivery.
- **UPS 2-DAY:**
Guaranteed 2-day delivery to street addresses only (no P.O. boxes). No Saturday, Sunday, or holiday delivery.
- **UPS OVERNIGHT:**
Guaranteed next day delivery to street addresses only (no P.O. boxes). Additional charges for Saturday delivery. No Sunday or holiday delivery.

Note: Order processing time may take up to 5 business days before a product is shipped.

SHIPPING METHODS OUTSIDE OF THE U.S.: Certain items ordered by or for visually impaired people can be shipped to most overseas destinations via Free Matter for the Blind (surface mail). These include books, paper, and slates/styluses. The shipping charges for all other APH items must be paid by the customer. We recommend shipment by Priority Mail International airmail®, as surface mail is slow. All export and/or import duties, brokerage fees, etc., are paid by the customer. Please check with your customs broker to make arrangements in advance.

TWO WAYS TO ORDER APH SOFTWARE FOR WINDOWS

APH offers two convenient ways to order most of our software* for Windows® products.

- Order the CD-ROM** via website, toll-free, or mail.
- Purchase the program through Digital Download. Download the demo version of the software from our website tech.aph.org Call 800-223-1839 and give us your credit card number. Within 24 hours, we will give you a code key that transforms your demo copy of the software into a full copy.

*All software purchases are non-refundable and non-returnable.

**CD-ROM and Digital downloads are also available to Federal Quota and Purchase Order customers via fax, email, or mail.

TO PURCHASE MULTIPLE LICENSES FOR TALKING TYPER FOR WINDOWS SOFTWARE:

- Place your order using a credit card, purchase order, or Federal Quota order. Please specify the exact number of licenses needed. Specify a registration name that APH will use to assign a key code to your licenses.
- Follow one of the two steps in box on previous page.
- Your receipt from the transaction is your license to place the software on the appropriate number of computers, up to the maximum number of machines that you specified.

ORDERING APPS FOR IOS DEVICES USING QUOTA OR NON-QUOTA FUNDS

HOW TO PURCHASE APPS FOR IOS DEVICES WITH QUOTA FUNDS:

- Ordering: Ex Officio Trustees can submit a signed Quota order for one or more licenses [Math Robot, Talking Typer, Nearby Explorer] to APH by fax or mail. Please provide a contact person's email address or phone number on your order. **Note:** At this time, APH mobile apps cannot be ordered online using Quota funds.
- Receiving: APH will email an Apple Content Code for each license that you order. You will also receive a hard copy confirmation of each code printed on the invoice that APH mails to you.
- Distribution: EOTs are responsible for distributing Apple Content Codes to those teachers or others in their states who have ordered [Math Robot, Talking Typer, Nearby Explorer] on Quota.
- How to Install: The end user will install [Math Robot, Talking Typer, Nearby Explorer] with their Apple Content Code by: using his or her iOS device > open App Store > select the "Featured" tab > scroll to the bottom of the Featured screen > select "Redeem" > enter the password for the device > follow instructions on Redeem screen.

- If you click on this link from an iOS® or Android™ device, the title will open in iBooks for iOS or Google Books™ for Android.
- On iBooks for Mac, it will open the title.
- On Windows® operating system or Linux® operating system, you will need to download and install an EPUB reader before you can read this title, such as the Readium™ extension for the Chrome™ Browser.
- Adobe® Digital Editions does not support the interactive features built into this particular title, although the text reads correctly.

RETURNS POLICY

DEFECTIVE MERCHANDISE:

APH makes every effort to inspect merchandise before it leaves our facility. If by chance you do receive an item which is defective, we will repair or replace it at no cost to you (we reserve the right to choose whether we will repair or replace the item). In the case of items that have a specific warranty, we must be notified within one year of the date the item was shipped to the end user. In the case of items that do not have a specific warranty, we must be notified within 30 days of the date the item was shipped to the end user. For more information on warranties, please refer to the following section.

OTHER RETURNS:

We want you to be satisfied! You may return most APH products for any reason within 60 days of the date that the item was shipped from APH, subject to the following conditions:

- We require prior authorization for a return. Write or call APH Customer Service to explain which items you would like to return. We will give you a Return Authorization Number. When returning the items to APH, please write this Return Authorization Number on the outside of the shipping container. APH will refuse a product return if the Return Authorization Number is not written on the outside of the shipping container.
- When returning items to APH, include your original purchase order number or a copy of the original packing slip or invoice. This will allow us to process your return more quickly.
- Items must be nondamaged and in a resalable condition.
- A 10% restocking charge may be deducted from your refund.

Notes: 1.) The following items may not be returned for any reason other than defects, and

2.) An order for the following books may not be canceled once production has begun:

- Software: APH offers free demo versions of our software for you to try. Once you have ordered a full copy of the software, whether a CD or an electronic download, the software may not be returned. The only exception is that you may return a defective CD.
- Special-order items, including custom-made books

Note: An order for the following books may not be canceled once production has begun:

- Large print books (catalog number prefixes 4-, A-L, F-, J-, L-, L-C, or M-)
- Braille Books (catalog number prefix A-B or T-N)

HOW TO ORDER AND RELATED INFORMATION

LIMITED WARRANTIES ON APH PRODUCTS

All APH products are covered by a limited warranty. Certain products are covered by a warranty that expires one year from the date the item is shipped to the end user. All other products are covered by a warranty that expires 30 days from the date the item is shipped to the end user. Warranty does not apply in cases of customer modification, misuse, or abuse of APH products.

Note: Extended warranties do not cover replacement of electronic product accessories, including rechargeable batteries.

WARRANTY ON REPAIRS

There is a 90-day warranty for work performed by APH on repaired equipment. This warranty covers both labor and parts. As always, the warranty does not apply in cases of customer modification, misuse, or abuse of APH products. Please note that extended warranties do not cover replacement of electronic product accessories, including rechargeable batteries.

GENERAL REPAIR POLICY

If you are experiencing trouble with an APH product, please call 800-223-1839. Explain the problem to our friendly Customer Service staff. It is possible that we can solve your trouble over the phone. If it is determined that your product does require servicing, please use the following guidelines.

PRODUCTS UNDER WARRANTY

If your product is still under warranty, we will repair or replace the item at no cost to you (subject to some restrictions). Please ship the product to us along with a written description of the problem.

ORBIT RESEARCH AND FREEDOM SCIENTIFIC PRODUCTS: WARRANTY AND NON-WARRANTY REPAIRS

Customers should notify Customer Service at 800-223-1839 or cs@aph.org for special instructions for repairs of the Orion TI-36 Calculator (1-07335-01), Orion TI-84 Calculator (1-07340-00), Orion TI-30XS Calculator (1-07330-00), Orbit Reader 20 (1-07419-00), and Video Mag HD (1-03914-00). These products should not be returned to APH for repair.

PRODUCTS OUT OF WARRANTY

FEE TO BE DETERMINED FOR REPAIR

Some products do not have a set fee for repairs due to the wide range of prices for repair parts. A non-refundable evaluation/handling fee is charged for these items, which includes return shipping by UPS. Before products are repaired, you will be notified for your approval of the repair fee. If you choose to have the item repaired, the evaluation/handling fee will be applied toward the cost of the repair.

FEDERAL QUOTA FUNDS COULD HELP PURCHASE APH MATERIALS FOR YOUR STUDENTS

The federal Act to Promote the Education of the Blind provides funds for accessible educational materials for eligible students who meet the definition of blindness. An annual registration of eligible students determines a per capita amount of money specifically designated for the purchase of educational materials produced by the American Printing House for the Blind (APH). **These funds are credited to Federal Quota accounts** maintained and administered by APH and its Ex Officio Trustees throughout the United States and Outlying Areas.

WHO IS ELIGIBLE?

While there is **no chronological age limit for eligibility**, for students to be eligible to participate in the Federal Quota Program, they **MUST** meet the following requirements:

- **Meet the definition of blindness** – a central visual acuity of 20/200 or less in the better eye with best correction; or a peripheral field of vision no greater than 20 degrees; or **function at the definition of blindness**, when visual performance is reduced by a brain injury or dysfunction, and visual performance meets the definition of blindness as determined by an eye care specialist or neurologist.
- Be enrolled in a formally organized public or private, nonprofit educational program of less than college level.
- Infants, preschool, and school-aged students must be enrolled with the registering school or agency on the first Monday in January.
- Eligible adult students are those who meet the definition of blindness and who are enrolled in instructional programs, at less than college level, for 20 hours per week. Social and leisure programs do not qualify as instruction; however, student practice to develop skills can be included in instructional hours. Registration will be determined by the number of students enrolled throughout the previous calendar year for at least three months of instruction (an accumulation of 12 weeks).

WHO ARE THE EX OFFICIO TRUSTEES?

For each residential school for the blind, state department of education, or agency for the blind that participates in the Federal Quota Program, an Ex Officio Trustee of the American Printing House for the Blind must be designated. Each Ex Officio Trustee is entrusted with the administration of the Federal Quota Program within his or her system.

WANT MORE INFO?

For more information about the Federal Quota program, visit www.aph.org/advisory/ or call **1-800-223-1839**. On our website, you can find contact information for the Ex Officio Trustees in your state. These Trustees can give you the specific information about whether your student may qualify for APH materials purchased with Federal Quota funds: www.aph.org/federal-quota/trustees/
